The feet can leave the floor or land on the floor either at the same time or one at a time. This applies when the move is executed on:

- the hand(s) (e.g. a cartwheel done on the hand(s))
- the arm(s) (e.g. a cartwheel done on the forearm(s))
- the head (e.g. a headstand)

Typical examples are: front or back walkovers, cartwheels, etc

Definition of an Aerial Acrobatic Move

Definition of a Mount

Mounts are defined as any body toss or form that is two stories or more. A story (as in 10-story building) is defined as a person's height. 1/2 story is defined as a person kneeling/sitting or lunging. Stacking one person on top of another to achieve a pyramid shape or similar form is not permitted.

NOTE: A horizontal butterfly (where the feet do not go over your head) is not considered an aerial acrobatic move. It is considered a major body move.

9. COSTUME, FOOTWEAR & BATON GUIDELINES

Costume - there shall be no restrictions on costume choice for any of the disciplines bearing in mind that it should be in good taste and reflect that this is a sport.

Traditional majorettes style costumes are allowed. Hats are optional.

If a costume or part of the costume is removed or manipulated, it will be considered as an accessory (only allowed in Showtwirl Accessories Corps)

If removed and used, it will be considered a rule violation and a one-time 2.0 pt. penalty will be assessed regardless of the number of members using/manipulating it).

Footwear - Footwear must meet the requirements of the facility.

Batons

Batons must conform to the definition of “baton”.

Penalty for non-conformance: 10 pt. Penalty off of each judges' score.

DEFINITION OF A BATON

A standard baton is a chrome-plated/silver steel shaft with varying size weights in either end. The weights are either pounded or pressure fitted and covered with a white rubber ball (the large end) and a small white rubber tip covering the other end.

Various batons have various balance points depending upon size and weight.

If the baton has a colored shaft and/or colored tips, it will be considered as an accessory.

Most batons are between 14 to 32 inches (35.5 to 81.5 cm) in length and are either 3/8 inch (10 mm), 5/16 inch (8 mm), or 7/16 inch (11 mm) in diameter. The normal standard baton weights about 8 ounces (or 227 grams) – the length and diameter do also factor into the weight.

USE OF GRIP TAPE ON BATONS

The use of grip tape is optional, may be used bearing in mind that this is a sport.

Grip tape can cover up to 1/2 of the shaft, divided equally from the center – when measuring only the shaft, not including ball and tip.

Clarification: The outer quarter of each end may not be covered.

Grip tape can be applied in solid, striped or spiral fashion.

Tape can be of any two color (s): One color to wrap and other color to mark the center. Inside a Majorette Corps, the grip tape must be the same.
