## 4.0 SHORT PROGRAM:

The Short Program is a component of the Freestyle Solo discipline. (It is performed only by Freestyle Solo athletes.) It is a structure of 8 required technical elements which must be strictly performed as prescribed, same order, and facing front to a standard piece of music.

Women and men perform to different musical selections.

The music is selected and provided by the IBTF. Short Program will use between 1/3 and 1/2 of the competition floor.

The short program is worth 25% (twenty-five per cent) of the total score in Freestyle Solo.

The procedure for Short Program competition will be as follows:

- The competition floor shall be divided in half by a curtain.
- The Junior and Senior athletes are introduced at the same time and take position in front of judges. They will run simultaneously.
- Short program music will begin and both athletes will commence their performance.
- The athletes leave the floor when the announcer states "Thank you."
- The next competing Junior and Senior athletes will then be introduced and take their positions.

**Junior Short Program:** will perform the Required Elements only to the music. No accessory material. Prime consideration will only be given to the technique of baton and body during the execution of eight required elements derived from the three Modes of Twirling (aerials, rolls and contact material) and a total adherence to the prescribed required element specification.

All of the judges will judge the 8 Required Elements.

The high and low score of each Required Element will be thrown out when 5 or more judges are utilized.

**Senior Short Program** requires the additional responsibilities of conforming to the music and displaying performance skills and develops musical interpretation, simultaneous responsibility, movement in space, staging and continuity. These factors will be considered in composition/performance.

Senior Short Program is judged on technique, composition and performance and a total adherence to the prescribed required element specification.

The judging panel for the short program discipline will be split into two groups based on the number of judges on the panel.

The majority of the judges will judge the 8 required elements.

A lesser number of judges will judge the Composition and Performance.

The high and low score of each Required Element will be thrown out when 5 or more judges are utilized.

#### **JUNIOR SHORT PROGRAM SCORING, DEDUCTIONS AND PENALTIES:**

- a) Each Required Element is worth 10.0 points. A panel of judges is assigned to assess the value of each Required Element. The total score received from all Required Elements (Total Average Short Program Score) is converted to the 25% score (Gross Short Program Percentage Score). Penalties and deductions are taken from the Net Short Program Percentage Score. Note: Element 6, which is the contact material is divided into two parts making a 6a and 6b. 6a and 6b are then averaged in tabulation to make 8 elements.

- b) **Other Penalty:**

If the athlete does not start the Required Element on Count 1 of the 8-count phrase of the Element, a 0.1 deduction will be deducted from the Short Program Net Percentage Score.

A Penalty Judge will be added to the panel. If not possible, one of the judges assigned to Required Elements will be responsible for the Count 1 penalty assessment.

c) Drops are considered by the Required Element Judges

- Each Required Element judge deducts 2 points for a drop from the assessed score for the Required Element and ceases judging the move as soon as a drop occurs.

**EXCEPTION:**

There are two 8 count sections of contact material separated by 8 free counts. If a drop occurs, there is not time to continue that 8 count sections (vertical or flat) the athlete will receive a penalty for a drop but only one (1) per 8 count section. Each section of the contact material should be treated like all other elements, in regard to drops.

**SENIOR SHORT PROGRAM SCORING, DEDUCTIONS AND PENALTIES:**

- a) Each Required Element is worth 10 points, totaling 80% of the Score. A panel of judges is assigned to assess the value of each Required Element. Note: Element 6 which is the contact material is divided into two parts making a
- a) 6a and 6b. 6a and 6b are then averaged in tabulation to make 8 elements.
- b) Composition + Performance is worth 20 points, totaling 20% of the Score. A separate judge (or panel of judges) is assigned to assess the value of the Composition & Performance.
- c) Illegal Accessory Material is defined as any move that is not prescribed or prohibited in a Short Program.

**Illegal Accessory Material Penalty:** is a 2.0 penalty per infraction and is deducted from the Short Program Net Percentage Score.

d) **Other Penalty:**

If the athlete does not start the Required Element on Count 1 of the 8-count phrase of the Element, the Penalty Judge will take a 0.1 penalty per infraction and is deducted from the Short Program Net Percentage Score.

A Penalty Judge will be added to the panel to check for illegal accessory material and other penalties. When not possible, one of the judges assigned to Required Elements will be responsible for the penalties.

e) Drops are considered by the Required Element Judges

- Each Required Element judge deducts 2 points for a drop from the assessed score for the Required Element and ceases judging the move as soon as a drop occurs.

**EXCEPTION:**

There are two 8 count sections of contact material separated by 8 free counts. If a drop occurs, there is not time to continue that 8 count sections (vertical or flat) the athlete will receive a penalty for a drop but only one (1) per 8 count section. Each section of the contact material should be treated like all other elements, in regard to drops.

*See – SHORT PROGRAM SECTION for further information, rules and regulations regarding Short Program.*

## **5.0 FREESTYLE SOLO COMPETITION**

The athlete will use only one baton.

Entry on to the floor is from the judges' left. Starting position may be anywhere on the floor. Exit from the floor must be to the judges' right.

The freestyle is worth seventy-five percent (75%) of the total score.

Freestyle is judged on Technical Merit (worth 10 points) and Artistic Expression (worth 10 points).

### **SUGGESTED GUIDELINES FOR CONSTRUCTING AN INDIVIDUAL FREESTYLE PROGRAM**

#### **Aerial Mode**

- Juniors: 5 aerials
- Seniors: 5 aerials

The following are to be included:

- 1 spin (continuous)
- 1 stationary complex
- 1 travelling complex.
- 2 free
- (at least) 1 must be Horizontal Pattern

#### **Rolls Mode**

- Should be in both Horizontal and Vertical pattern.

#### **Contact Mode**

- Should be in both Horizontal and Vertical pattern.

## 6.0 RHYTHMIC TWIRL COMPETITION

The athlete will use only one baton.

Entry onto the floor is from the judges' left. Starting position may be anywhere on the floor. Exit from the floor must be to the judges' right.

### GUIDELINES FOR CONSTRUCTING A RHYTHMIC TWIRL:

This event is the ultimate simultaneous blend of all one baton twirling skills and body/dance disciplines set to music of personal choice, utilizing the full floor. The focus should be on the combination of dance moves with rolls, aerials & contact material.

#### Event Focus:

- A. Simultaneous blending of baton and body with excellence of technique
- B. Musical interpretation and execution
- C. Representation of the 3 twirl modes both stationary and moving in an artistically logical program

Acrobatics are not allowed in Rhythmic Twirl.

**Acrobatics** are considered a Content Restriction and are subject to a 10-point penalty per content restriction infraction per judge.

#### Definition of an Acrobatic Move

A movement will be considered acrobatic in a baton twirling program when the intent of the movement is for both feet to leave the floor, travel over the head and land on the floor on the opposite side, either one at a time or both feet at the same time. This applies when the move is executed on:

- the hand(s) (e.g., a cartwheel done on the hand(s))
- the arm(s) (e.g., a cartwheel done on the forearm(s)) • the head (e.g., a headstand)
- in the air with the support of another person's body (e.g., a cartwheel done while supporting the body on another person)

Typical examples are front or back walkovers, cartwheels, somersaults etc. Dance oriented floor moves such as fish flops are permitted.

#### Definition of an Aerial Acrobatic Move

A body movement in which the athlete turns completely over in the air without being supported or touching hands on the floor,

Examples:

- In the air without support of the body (e.g., side aerial; back flip; aerial walkover)

**NOTE:** A horizontal butterfly (where the feet do not go over your head) is not considered an aerial acrobatic move. It is considered a major body movement.

The Rhythmic Twirl is judged on a one hundred (100) point scale:

Rhythmic Twirl is judged on five (5) captions each worth 20 points:

### Score Sheet Analysis Breakdown:

#### 1) Choreography (20 points)

This caption focuses on the composition of the program that reflects the choreographer's design, utilizing baton and body elements simultaneously blended together to create a logical and impressive performance, showcasing the athlete's skills in all modes of twirling, combined with movement and dance elements.

#### 2) Content (20 points)

This caption focuses on the variety and difficulty of the baton and body elements demonstrated throughout the program including aerials in both stationary sections and travel complex, contact/connecting material and rolls and unique elements. It also considers the variety and difficulty of the chosen body work used to define the program.

#### 3) Twirl Technique (20 points)

This caption evaluates the technical proficiency and excellence of baton handling created through items such as control, rapidity, follow through, baton pattern and smoothness.

#### 4) Dance Technique (20 points)

This caption evaluates proper technical proficiency of body movements while maintaining balance, style, rhythm, timing and use of musical phrasing during performance. Awareness of turnout, posture, leg and arm lines, toe point, balance and control are some of the key considerations. All forms of dance are acceptable when the proper technique for the chosen style is present.

#### 5) Artistic Presentation / Showmanship (20 points)

This caption focuses on the performance qualities and expression used to convey the artistic theme of the program by the performer. Full body interpretation is the ideal, regardless of the style chosen.

#### Penalties:

Drop	Total Loss of the Baton	1.0 point per drop
Fall	Full loss of body control resulting in a fall	1.0 point per fall
Acrobatics	None allowed	10.0 point per violation

All other errors including incomplete catches, breaks, slips and off pattern are deductions reflected in the appropriate captions gross score.

## **7.0 FREESTYLE PAIR COMPETITION**

Entry onto the floor is from the judges' left. Starting position may be anywhere on the floor. Exit from the floor must be to the judges' right.

The Pair event is a combination of the freestyle and team concept. Pair members are expected to conform not only to the music and to the set standards of correct technique, but also to conform to each other. This includes the maintenance of form and geometric intention through the awareness of position in stationery as well as moving forms. Time must be spent twirling synchronically while displaying variety and difficulty of movement together. A pair is expected to exhibit variety in the exchange work with patterns, planes, levels, ranges paths, modes, releases, catches, body work, number of members involved, number of batons involved (multiple or single), stationary and moving. Often there will be separate responsibilities involved that place a high degree of mental demand on the members which requires them to adapt to varying circumstances with a minimum of visual orientation to the other member.

A Pair is judged on a one hundred (100) point scale worth:

30 points for Content

30 points for Precision and Unison

40 points for General Effect

## **8.0 FREESTYLE TEAM COMPETITION**

Entry onto the floor is from the judges' left. Starting position may be anywhere on the floor. Exit from the floor must be to the judges' right.

A Freestyle Team routine will be a mixture of twirling and dance. The general standards of Freestyle Team are the same as Freestyle Solo, with additional responsibilities. Team members are expected to conform not only to the music and to the set standards of correct technique, but also to conform to each other. This includes the maintenance of form and geometric intention through the awareness of position in stationary as well as moving forms. Time must be spent twirling synchronically while displaying variety and difficulty of movement together. A team is expected to exhibit variety in the exchange work with patterns, planes, levels, ranges paths, modes, releases, catches, body work, number of members involved, number of batons involved (multiple or single), stationary and moving. We not only expect to see a variety of pictures in movement, but also a variety of ways of using space through rotating, growing smaller or larger, moving the form from side to side/front to back/diagonally, changing positions to create new pictures, and using different levels and directions (or planes.) But the logical development of ideas is extremely important when moving the people around the floor. The evolution of one picture into another must appear natural and be smoothly executed. Conceptual excellence is an expected quality in the team event.

Freestyle Teams are judged on a one hundred (100) point scale worth:

30 points for Content  
30 points for Precision and Unison  
40 points for General Effect

### **Effective 2024:**

Freestyle Teams will be judged using the Place Point Ordinal system.  
See tabulation rules for Teams: Section 30 on Page 39

## 9.0 TIME LIMITS

Timing begins with the first sound or note (whichever comes first) and ends with the last sound or note of the music (whichever comes last). No credit is to be given for anything executed after the sound of music has stopped. This means that if an element is not finished with the music, it will not be judged.

No salute is required. One simple presentation can be executed.

After short program is completed, the placements will be divided into 3 equal Groups (e.g., 15=5+5+5) or when there is an unequal number in the SUB-GROUPS (e.g., 20=7+7+6) the top seed GROUP is the GROUP that will use the lesser number for the Freestyle Solo Warmups.

### Preliminary Round

- (1) To determine placement for seeding – use the Net Short Program Percentage Score.
- (2) The placements are then sub-divided into 3 equal groups. (e.g., 15=5,5,5) OR when there is an unequal number in the sub-groups (e.g., 20=6,7,7) the top seed group is the group that will use the lesser number.
- (3) A random draw within each sub-group will determine order of performance.
- (4) The lowest placed sub-group will perform first.

### Semi-Finals

- (1) To determine the placement for seeding use the Net Short Program Percentage Score plus 1<sup>st</sup> round Net Freestyle percentage score.
- (2) Steps 2 repeat process for Preliminary Round
- (3) A random draw within each sub-group will determine order of performance in Semi-Finals and will be in reverse of placement within each sub-group.
- (4) The lowest placed sub-group will perform first.

### Finals

- (1) To determine the finalists: use the Net Short Program Percentage Score plus 2<sup>nd</sup> round Net Freestyle percentage score.

## 29.0 SCORING AND TABULATION PROCEDURE FOR RHYTHMIC TWIRL FREESTYLE PAIR AND FREESTYLE TEAM:

**Scores are based on a 100-point scale.**

**Judges will** use the Place Point Ordinal Scoring System for judging Rhythmic Twirl and Freestyle Team.

### DETERMINATION OF PLACEMENT

Placement is determined by place points (not the scores) received. The following steps will be utilized:

**Step #1** – Any majority of firsts will determine first-place only. If there is not a majority of firsts, revert to the lowest total PLACE POINTS (adding up the places each athlete received). The lowest number of place points determine all other placements.

**Step #2** – When there is not a majority of firsts and there is a TIE in the place points, revert back to the total net numerical score from all judges. The highest total score breaks the tie and determines the higher placement.

**Step #3** – If Step #1 and Step #2 have been followed and a tie remains, use the following procedure:

### TIE BREAKING PROCESS

- a) In the final round, ties for any position except 1<sup>st</sup> place remain unbroken. All Ties will remain tied, and one placement will be skipped. Example: a second-place tie, the next place is fourth.
- b) If there is tie for first place, use the preliminary round placement and follow the same procedure to break the tie and determine the winner.

\* 5 or more judges normally serve on the panel.

### 30.0 SCORING AND TABULATION PROCEDURE FOR FREESTYLE SOLO:

#### FREESTYLE SOLO:

Scoring process is an accumulative build-up score.

The Short Program is worth 25% of the overall score and the Freestyle portion is worth seventy-five percent (75%) of the total net score.

Freestyle Solo is judged on Technical Merit (worth 10 points) and Artistic Expression (worth 10 points).

#### FREESTYLE SOLO TABULATION PROCESS:

- 1) The completed Freestyle scores are recorded,
- 2) Cross out the highest and lowest score for Technical Merit and for Artistic Expression.
- 3) \*Compute the total for Technical Merit and Artistic Expression, disregarding the highest and lowest scores that have been crossed out and record the total scores.
- 4) Always use 4 decimal places on each computation (4 digits to the right of the decimal point).
- 5) Add the total for Technical Merit and for Artistic Expression to get the Total Freestyle and record this sum.
- 6) Divide the total by the number of judges minus 2 (high and low) to get the judges' Average Freestyle Score and record this score in the indicated column.
- 7) Multiply the Average Score by the conversion factor (3.75) to get the Freestyle Percentage Score and record this score in the indicated column. (This is done to equate the Freestyle score to 75%).
- 8) All Freestyle Penalties are then subtracted from to get the Net Freestyle Percentage Score

**\* POLICY - If there are 5 or more judges on the WBTF Judges' Panel, the high and low scores are thrown out. If there are 4 or less judges on the WBTF Judges' Panel, the high and low scores remain to be counted in the total.**

#### TIE BREAKING PROCESS

##### FREESTYLE SOLO:

**Preliminary or Semi-Final Round to Final Round:** Ties will remain unbroken for all places except when advancement to the final round is in question. In this case 6<sup>th</sup> or 10<sup>th</sup> place (depending on the number in the finals) will be broken by using the Net Freestyle 75% score ONLY from the round before finals."

**Final Round:** To break a tie in the Finals, the Finals Freestyle Net 75% Percentage Score ONLY, will be the determining factor. The highest score being the top place. If there is tie with the Final FS 75% score, use the 1<sup>st</sup> round Net Freestyle Percentage Score to break the Tie.

1. This is a running display board that begins with the first competitor (athlete, pair or team) in the division. It will display the total average score from all judges and the placement from each judge. The display board then continues to add the name of the next competitor (s) after the judges have scored the second competitor and then each competitor(s) following the scoring of the performance as the competition progresses. NOTE: Competitor number one would have first places from every judge across the board because there were no other performances to score before that. Following the scoring of the second competitor(s), the ranking begins. One of the first two competitors will then be ranked in first and one will be ranked in second depending the number of place points that each received. This process will continue until all (for example 30 competitors) have competed and all placements have been displayed.
2. The display shows the name of the athlete, pair or team and country: It displays the place points of each judge. This display example utilizes 7 scoring judges and a tie for first place which is broken by total numerical score.

(full basketball floor depending on location of competition)

Area	NBA		FIBA	
	Imperial	Metric	Imperial	Metric
Court length	94 ft	28.65 m	91.86 ft	28 m
Court width	50 ft	15.24 m	49.21 ft	15 m

If the floor is not marked, it should be marked front/back and left/right centers on the carpet using vertical and horizontal lines – in case a basketball court is not used.

The boundaries will not be strictly interpreted as boundaries per se, but as the size of the floor that is available to the athletes. Should an athlete step on or across the lines, the judges will each determine individually, whether or not this is cause for lowering the score, based on the athlete's floor pattern and use of the space.

The judges' tables shall not be too far spread out so as to cause the judges seated on each end to view the athlete from an inconvenient angle. The judges' area must be isolated from contact with any unauthorized person or group and must be free from any visual obstructions.

#### **Rhythmic Twirl, Freestyle Solo, Freestyle Pair and Freestyle Team Competition**

Judges must be seated at tables in 2 or 4 rows; all rows elevated during the judging of IBTF Rhythm Twirl, Freestyle Solo, Freestyle Pair and Freestyle Team competition, in the exact center front of the competition floor.

The "Judges Area" must also be isolated from any contact with any unauthorized person or group and must be free from any visual obstructions.

or trays should stand directly beside the designated Presenter to their right side.
- 3) Athletes Names are to be read in order of placement from 6<sup>th</sup> place to 1<sup>st</sup> place.
- 4) Presenters then step forward and present the medals & any other gift/awards to all of the winners at the same time and then exit the floor.

The IBTF will assist the host country with versions of every country's National anthem to be played at Opening Ceremonies and for all Medal Ceremonies.

A Flag Raising Apparatus is to be displayed in clear view of all, to raise the flags of the Gold, Silver, and Bronze Medallists. (or displayed the flags electronically)

**WORLD CHAMPION COUNTRY AWARD PRESENTATION:**

The country whose athletes, pairs and team earn the highest number of accumulated place points will receive the **IBTF WORLD CHAMPION COUNTRY AWARD**. The 2nd-6th place countries will also receive an appropriate IBTF award (plaque or trophy)

The top 6 countries will be announced, 6<sup>th</sup> through 1<sup>st</sup> place. Following the announcement, the Host Country will hoist the country flag (or display the flags electronically) of the top three countries. The anthem will be played for the 1<sup>st</sup> place winner.

If there is a tie for 1st place: The WORLD CHAMPION COUNTRY AWARD will remain with one country for 6 months, then will be presented to the other country to be returned at the next WORLD Freestyle Championship.

The WORLD CHAMPION COUNTRY AWARD should be displayed in prominent view at the Awards Ceremony. The IBTF President will present the WORLD CHAMPION COUNTRY AWARD to the winning country.

**WORLD CUP POINT VALUE AND TABULATION:**

Tabulation will add the number of finalists (when applicable) and the remainder of the competitors from the preliminary round in order from highest score. The countries' scores and final placement are also pulled in. Using the number entered, "World Cup" points are awarded in reverse order. Example: if there are 22 competitors, the competitor who took first place would receive 22 points and the competitor in 22nd place would receive 1 point. Ties: if 2 competitors tied for first place, they should both receive 22 points and the competitor in third place should get 20 points.

If a competitor became ill or injured, he/she should still be counted in this process as they will still receive a point. If a competitor became disqualified along the way, she/she should not be included in the number used because they will not receive any points.

Freestyle Pairs and Freestyle Teams are also included in the World Cup tabulation. It is configured exactly the same as the individual disciplines.

## **STAGING OF IBTF CLOSING CEREMONIES**

Should the IBTF flag or the World Champion Country Award be lost, it will be the responsibility of the previous Host Country to purchase those items at their expense.

## 41.0 PROTESTS/APPEALS

### **POLICY/PROTOCOL FOR CORRECTING MISTAKES MADE IN ANNOUNCING AND AWARDING OF WRONG ATHLETE:** (How to correct and award the correct athlete, how to stage re-presentation, how to correct award picture.)

(This policy is effective for the WORLD Championships, WORLD Cups, along with all Continental Level Cups and Championship.)

1. Judges' decisions are considered final, and their scores cannot be appealed.

#### **The exception is penalties.**

Penalties incorrectly assessed for drops and/or content restrictions may be challenged ONLY if the appeal is submitted to the technical director within the 30 minutes following the announcement that the results have been posted and before the next round of competition is to take place or before the final placements are announced at awards ceremonies.

Appeal of an incorrectly assessed drop penalty or content restriction involves the technical director and judge's chair ability to review an officially sanctioned video which clearly displays the error.

It should be noted that two judges are to be used to assess drop penalties for Team. If the number of drops assessed differs between the two judges the average number is taken and will be rounded up to the next whole number. For example: Penalty Judge # 1 assesses 4 drops.  
Penalty Judge # 2 assesses 3 drops.

In an effort to help correct penalties incorrectly assessed in error in a timely manner, the penalty judges will display the penalties immediately following the performance. Drop penalties will be displayed on White Cards with Red Numbers and Content Restrictions will be displayed in Yellow Cards with Black Numbers

It should also be noted that incorrectly assessed penalties "missed" may be appealed just penalties taken in error.

All tabulated results are considered final 48 hours after the close of the competition.

Errors in tabulation or score calculation identified within the immediate timeframe of the competition are to be reported to the competition organizers, who will investigate and correct immediately as necessary.

In this case, to officially correct an error, the following procedure should be implemented:

- Have all competitors in the category/age division who placed in the division report to the competition director with their medallions.

- Explain the error to the competitors, award ceremony coordinator, and announcer.
- Schedule, as quickly as possible, a public corrected awards presentation of the division.
- An official picture of the corrected final placement is taken for historical documentation.
- In the discipline all competitors who cannot be reached or present for a publicly corrected awards presentation for the division, the process stated below will take place:
  - The corrected placements will be officially announced.
  - The official photographer will need to “photoshop” the official picture with the athletes standing in their proper final placement.

#### **42. APPEALS COMMITTEE REGARDING TABULATION:**

1. The Appeals Committee shall be chaired by the President of the Federation.
2. The President shall appoint two (2) members of the elected Executive of the Federation, one of which may be the Vice President.

### **43. RULES OF ENGAGEMENT REGARDING A REVIEW OF PENALTIES**

1. IF the Penalty Judge is certain about the penalties, he/she will display the penalty amount after the routine is done.
2. IF the Penalty Judge is initially uncertain but becomes certain after reviewing the video on their iPad, he/she will flash the penalty amount after the routine is done (basically, the same as 1 but with a brief delay, which is essentially the same time the other judges need to determine their score.
3. IF the Penalty Judge is initially uncertain and cannot reach a decision in the
4. time available before the next set, he/she will flash a RED card instead of a penalty amount. This tells the athlete & coach & audience that a decision is pending and will require a review once the division has finished.

With the above... the 30-minute window begins. Coaches know the penalty amounts or know that a review is pending.

If a review was required (for Item 3 or because a coach submits an appeal):  
Following completion of the review the Technical Chair will inform the coach of the result, either in person if the coach is available or by email.

Once all reviews are complete and all coaches are notified, and after the 30-minute window closes, the results will be posted.

By the time the results are posted, no more reviews can be received.
